Could it be ? a TP!??

- 737.7 UNID carrier 0732 Apr 11, second time I've had a het around this freq. Last time carrier was on 738. Does Tahiti ever wander off its freq.? (Hakiel-NY) I can't say whether they wander. Tahiti does s/off every morning except Saturday around 0730. IF any activity is noted here again check SW // to see what time they s/off & if s/off of // matches a s/off of 738 carrier. George say this loops west and that 0730 is too late for Spain this time of the year Tahiti loops 250° & is our best TP bet -ed.
